Nursing Center of Colerain

# Welcome

to our friendly Liberty Family

Wherever you are in life's journey, we can provide the level of care you need to live your most fulfilling and rewarding life possible.

Our newly constructed facility offers both private and semi-private rooms complete with a wide range of amenities. We invite you to come visit us, meet the staff, talk with residents. We are sure that once you get to know us, you will see why so many have chosen us to be their choice for care.

Call for a tour and one of our staff members will show you around and answer all your questions.

## Liberty of Colerain offers:

REHABILITATION CARE

LONG-TERM NURSING CARE

RESPIRE CARE

CONVALESCENCE

HOSPICE CARE

## A healing touch

Our friendly and caring nursing staff consists of registered and licensed practical nurses as well as state tested nursing assistants. They provide professional care that complements the therapy services or personal care you may need such as assistance with bathing, dressing, or other activities of daily living. All of our skilled nursing care is supervised by a physician who is on call for consultations as needed. We can also work in conjunction with your other health care providers to support a comprehensive care plan created just for you.

New residents start with a physical assessment so that a care plan can be tailored to their specific needs, and we encourage resident and family involvement in creating a plan. Follow-up assessments take place periodically to ensure that the care plan is still on track. Our goal is to create an environment of continuing growth.

## Skilled Nursing Services

We are proud to provide skilled nursing care that encompasses a fine balance of compassion and expertise, delivered with professionalism and respect for your privacy and dignity. Our skilled services include:

- Wound care, including post-operative and non-healing
- Pain management
- Diabetic monitoring
- Digestive disorders, post-operative surgery/nutritional disorders
- Orthopedic care

## Convalescence and rehabilitation

We also offer the intermediate, short-term care that is sometimes needed to bridge the gap between a hospital stay and safely returning home. After a comprehensive assessment the care plan often includes therapy. We offer:

- Physical, occupational and speech therapy
- Cardiac rehabilitation
- Restorative nursing services

Our multi-disciplinary team will help you gain strength and mobility so you can return to the most active and independent lifestyle possible. If a condition requires specific ongoing therapeutic treatment, we may continue these on an outpatient basis for longer periods.

## Respite Care

Sometimes we all need a break. We understand and offer temporary relief for caregivers and a break from daily routines for the patient. It may be for a week or two, but our caring and experienced staff will provide personalized care and support for your loved one.
