AN OVERVIEW OF
LIBERTY RETIREMENT
COMMUNITY
OF LIMA

Welcome

to our friendly Liberty family

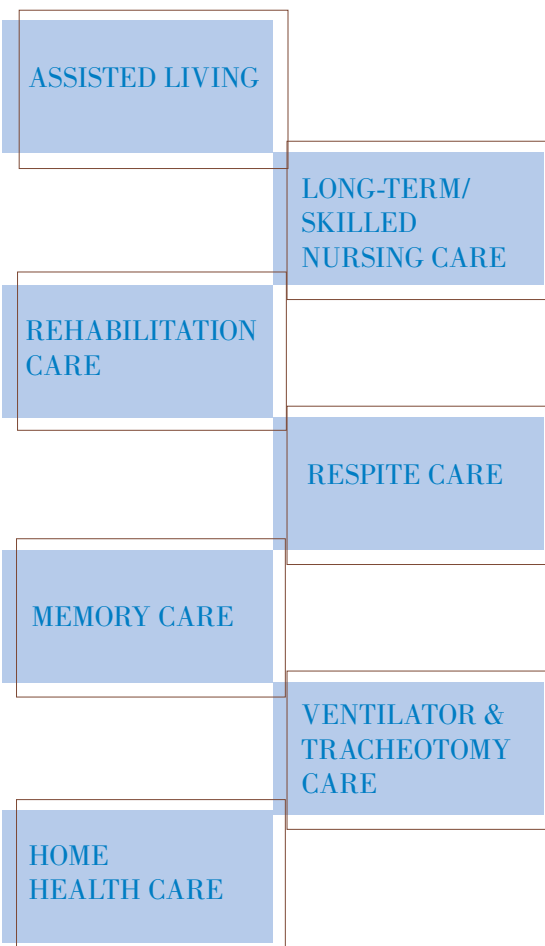

Wherever you are in life's journey, we can provide the level of care you need to live your most fulfilling and rewarding life possible.

Our vibrant community is conveniently located close to area shopping, restaurants and attractions. Besides assisted living villas, we offer both private and semi-private skilled nursing rooms complete with a wide range of amenities. We invite you to come visit us, meet the staff, talk with residents. We are sure that once you get to know us, you will see why so many have chosen us to be their choice for care.

Schedule a visit with us.

A healing touch

Our friendly and caring nursing staff consists of registered and licensed practical nurses as well as state tested nursing assistants. They provide professional care that complements the therapy services or personal care you may need such as assistance with bathing, dressing, or other activities of daily living. All of our skilled nursing care is supervised by a physician who is on call for consultations as needed. We can also work in conjunction with your other health care providers to support a comprehensive care plan created just for you.

New residents start with a physical assessment so that a care plan can be tailored to their specific needs, and we encourage resident and family involvement in creating a plan. Follow-up assessments take place periodically to ensure that the care plan is still on track. Our goal is to create an environment of continuing growth.

Skilled nursing services

We provide 24-hour skilled nursing and respiratory care that encompasses a fine balance of compassion and expertise, delivered with professionalism and respect for your privacy and dignity. Our skilled services include but are not limited to:

- Wound care, including post-operative and non-healing
- Cardiac, pulmonary, neurological and vascular disorders
- Pain management
- Cancer care
- Diabetic monitoring
- Respiratory services; including ventilator and tracheotomy care
- Digestive disorders, post-operative surgery/nutritional disorders
- Spine and orthopedic care
- Cardiac and stroke rehabilitation
- Musculoskeletal pain therapy

Convalescence and rehabilitation

We also offer the short-term care that is sometimes needed to bridge the gap between a hospital stay and safely returning home. After a comprehensive assessment the care plan often includes therapy. We offer:

- Physical, occupational, cognitive and speech therapy
- Cardiac and stroke rehabilitation
- Musculoskeletal pain therapy

Our multi-disciplinary team will help you gain strength and mobility so you can return to the most active and independent lifestyle possible. If a condition requires specific ongoing therapeutic treatment, we may continue these on an outpatient basis for longer periods.

Respiratory care

Ventilator and tracheotomy care are part of Liberty's comprehensive respiratory services. Our specialized team of 24-hour respiratory therapists provide individualized treatment plans for our respiratory and ventilator dependent patients. Every team member is committed to improving the quality of life for each resident.

Memory care

Our philosophy of care focuses on programs designed to keep residents engaged, providing stimulating activities for interaction in our secure unit. This often helps to reduce the need for medication and assists in structuring their time while enhancing their well being by adding purpose and meaning to everyday life.
